

The Philips logo is displayed in a white box with a blue border. The word "PHILIPS" is written in a bold, blue, sans-serif font.

Portable oxygen concentrators

A photograph of two women sitting at a small outdoor table. The woman on the right is wearing a light blue shirt and white pants, and is wearing a nasal cannula. She is smiling and holding a glass of water. The woman on the left is wearing a dark blue shirt and is also smiling. They are surrounded by lush green foliage. The text "The oxygen you need and the freedom to go anywhere" is overlaid on the image in a large, white, sans-serif font.

The oxygen you need
**and the freedom to
go anywhere**

Call us Toll-Free at 1-800-781-1017

A photograph of three people in a kitchen. On the left, a woman with brown hair and bangs is smiling. In the center, a woman with short grey hair is smiling and wearing a nasal cannula. On the right, a man with dark skin and short hair is also wearing a nasal cannula. They are all looking towards the right. In the background, there is a window with green plants outside and a kitchen sink with a faucet.

Now, you can get the oxygen
you need without having
to give up the life you enjoy.

If you have COPD, you know that your oxygen therapy is essential and life-giving. But...do you know that the freedom to move, to exercise, to be out in the world is as important to your physical and mental health as breathing?

That's why Philips, the #1
respiratory* brand† of choice
by pulmonary physicians,
provides portable oxygen
solutions that can give you
back your precious mobility.

Meet the Philips **SimplyGo Mini**

It's state-of-the-art, portable oxygen therapy that lets you travel, shop, go on outings with family, visit friends — enjoy your life!

Visit the park with the grandchildren, lunch at your favorite restaurants, take a stroll along the beach, even book an airplane flight to a dream vacation.....now you can SIMPLY GO...and enjoy.....without worry.

The manufacturer of this POC has determined this device conforms to all applicable FAA requirements for POC carriage and use on board aircraft.

Complies with
RTCA/DO-160G
section 21, category M

Rigorous testing for reliability you can count on.

Philips is a trusted name in oxygen therapy, providing the highest quality solutions for oxygen patients for more than 35 years.

So you can expect the Philips **SimplyGo Mini** to be an incredible, reliable machine.

In fact, every Philips **SimplyGo Mini** is subjected to the most rigorous testing, including impact, vibrations and temperature extremes. That means....drop it, shake it, accidentally leave it in the car on a hot summer day....Philips made sure it can stand up to the abuses of everyday life.

Call us Toll-Free at **1-800-781-1017**

Portable oxygen therapy the way you want it.

The Philips **SimplyGo Mini** is sleek and lightweight... a tiny powerhouse that's easy to use, and simplifies your life by making its own oxygen from the air around you! And because it's a tank-free delivery system with no big, awkward tanks to hassle with, no oxygen deliveries to schedule.... the Philips **SimplyGo Mini** is virtually worry-free.

This machine features a sleek, non-clinical design, and its stylish carrying case is so good-looking that it won't ever draw attention to your oxygen use. That's freedom!

And, whether you decide to carry it by hand or over your shoulder, you can do it with complete comfort.

There's also an optional backpack designed for those who prefer to take the Philips **SimplyGo Mini** "hands-free."

Call us Toll-Free at **1-800-781-1017**

Battery-powered to support your life – wherever it takes you.

Now, a long plane flight is within reach.....and all-day outings with the grandchildren can be worry-free.....because Philips **SimplyGo Mini** offers easy-to-change lithium ion battery options with standard AC and DC power cords that add to its convenience and flexibility.

The manufacturer of this POC has determined this device conforms to all applicable FAA requirements for POC carriage and use on board aircraft.

Complies with
RTCA/DO-160G
section 21, category M

So, you can choose the power option that works best for your life and how you want to live it!

Available battery options:

- Standard battery for battery duration up to 4.5 hours* (pulse setting of 2 at 20 BPM). Resulting in total Philips SimplyGo Mini weight of 5 lbs.
- Extended battery for battery duration up to 9 hours* (pulse setting of 2 at 20 BPM). Resulting in total Philips SimplyGo Mini weight of 6 lbs.

*Battery duration times are based on new, fully charged batteries used with a new Philips SimplyGo Mini system. Battery duration times will degrade with battery age, environmental operating conditions, use over time, and operational condition of the concentrator.

Meet the **SimplyGo**

For those who prefer continuous flow oxygen delivery in a portable device..... The SimplyGo is Philips' first ever oxygen concentrator that offers a continuous flow mode.

In fact, this model offers three different oxygen-delivery modes to suit your needs:

Pulse mode – detects breath intake and delivers the necessary volume of oxygen.

Continuous flow – uninterrupted oxygen delivered from 0.5 to 2 LPM.

Sleep mode – Pulse mode with increased trigger sensitivity for use during sleep. For peace of mind, SimplyGo switches automatically to 2 LPM *Continuous flow* if no breath intake is detected.
